## **DETAILED ACTION**

### ***Election/Restrictions***

1. Applicant's election without traverse of species of figures 1-5, claims 1-8, 15, and 28 are readable on the elected species in the reply filed on 07/05/2007 is acknowledged.

### ***Claim Rejections - 35 USC § 102***

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

2. Claims 1-8, 15, and 28 are rejected under 35 U.S.C. 102(e) as being anticipated by Dev et al. (U.S. 6,347,247).

Dev et al. discloses in figure 1, a nanoactuator (100) comprises a first electrode (110), a separator operatively associated with the first electrode and a second electrode (112), the second electrode (112) including nanopaper, and an electrolyte operatively associated with the separator and first and second electrodes (110,112), wherein the nanopaper comprises carbon nanotubes, wherein the separator comprises a porous membrane and a proton exchange membrane (PEM), wherein the PEM is selected from the group consisting of a perfluorosulfonate ionomer and a sulfonated poly(styrene-isobutylene-styrene), and further comprising a first conductor associated with the first
